

Organic Purees

Our nutritious baby purees are **steam cooked** to preserve all nutrients and then frozen to preserve natural flavours and colours. The range is totally additive and preservative free.

Each box of purees come in a variety of three different flavours making a total of **20 conveniently sized cubes**, each weighing approximately 36 grams. Quantities should be assessed and adjusted in accordance with individual interest and appetite.

Depending on the age of the child, you may wish to offer finger foods alongside our purees, to help introduce a range of different textures and flavours.
